**2012-2013**

**Children, Youth, & Family  
Services Directory**

Dear Friends and Neighbors,

I am pleased to bring you the 2012-2013 Orange County Youth Bureau's, *Children, Youth and Family Services Directory*. This valuable directory has been developed with Orange County's youth and families in mind.

The directory includes descriptions of the many services currently offered to you by the Youth Bureau and other agencies. It contains information about many local health and human service programs that are ready to assist you.

I trust you will find this directory to be very useful. Should you need any additional information, please don't hesitate to contact the Orange County Youth Bureau at (845) 615-3620 or [youthbur@orangecountygov.com](mailto:youthbur@orangecountygov.com). You can also visit the website at: [www.orangecountygov.com/youthbureau](http://www.orangecountygov.com/youthbureau).

Sincerely,

Edward A. Diana  
County Executive

***Orange County System of Care is a “community transformation initiative”. Our goal is to improve the way Orange County provides services to children and youth with mental health challenges, and their families.***

**Orange County has always had a System of Care, but starting in 2008, we began a new way of working together...**

- Families and youth have a voice in the decisions that affect them, attending workgroups and our monthly, community Full Partnership meetings. Our Parent Advisory Board, Youth Change Agents, and Family Support Groups also meet monthly.
- We work to make sure that information and services are accessible to everyone in our community, from all cultures and languages.
- We evaluate how we are doing by asking families what is working through research conducted by staff who work for the Center for Human Services Research at the University at Albany.
- We promote mental health awareness, prevention, wellness and recovery, throughout our community.

## **Orange County System of Care provides:**

- One-stop telephone access to the county agencies that serve children and youth, and Orange County's family support program.
- Help to access community services and supports, including outpatient mental health treatment.
- Answers to your questions about programs and services.
- For children, youth and young adults who meet eligibility criteria, Care Coordination and Family support through the wraparound process.

Our county partners include Mental Health, Probation, Social Services, Health, Youth Bureau, Employment and Training, Family Court, and many community agencies who work hard to serve children and youth with complex mental health needs.

If you live or work in Orange County, and care about children and youth with mental health challenges, you are part of Orange County's System of Care! Join us for our monthly Full Partnership Meetings held the 3rd Thursday of every month from 6 - 8 pm at the Orange County Department of Mental Health, 30 Harriman Drive, Goshen, NY 10924.

## Introduction: 40 Developmental Assets

Why Do Some Kids Grow Up With Ease, While Others Struggle? Why do some kids get involved in dangerous activities, while others spend their time contributing to society? Why do some youth "beat the odds" in difficult situations, while others get trapped?

Many factors influence why some young people have successes in life and why others have a harder time. Economic circumstances, genetics, trauma, and many other factors play a role. But these factors, which seem difficult, if not impossible, to change-aren't all that matters. Research by Search Institute has identified 40 concrete, positive experiences and qualities-"developmental assets"-that have a tremendous influence on young people's lives. And they are things that people from all walks of life can help to nurture.

Listed below are the 40 developmental assets that youth need to grow up to be competent, caring and healthy. Helping youth to develop these assets depends primarily on individuals - parents, grandparents, teachers, neighbors and many others - building positive relationships with children and teenagers. Nearly all children and adolescents need more developmental assets than they now have. While it is crucial to pay special attention to those children who have the least economically and emotionally, the challenge is to reclaim the kind of community-wide attention to positive development that will impact all young people
