

Elizabeth (Betta) Broad is the Outreach Director for the New Yorkers for Clean Power campaign, working to accelerate the transition to a renewable energy economy in New York State. She is a native New Yorker and longtime advocate for social justice, peace and sustainability. As the Deputy Director of Earth Day New York for five years, she organized the major Earth Day festivals in NYC and in 2011 she began working full-time on the campaign to ban fracking in New York State. Prior to launching New Yorkers for Clean Power, she was the Program Manager of the Community Fracking Defense Project, an initiative of Catskill Mountainkeeper and the Natural Resources Defense Council. While in this role, she created the RenewableNY program which received a \$1.8 million grant from NYSERDA to expand solarize campaigns across the Mid Hudson and Southern Tier regions. She is a co-founder of the Energy Democracy Alliance and serves on the board of Citizens for Local Power. A resident of Kingston, she was appointed to the Kingston Conservation Advisory Council and the Kingston Climate Smart Commission. She can be reached at betta@nyforcleanpower.org 607-222-3678

Max Joel is a Program Manager for Community Solar NY, a part of the NY-Sun Initiative at the New York State Energy Research & Development Authority (NYSERDA). He works to make solar power more accessible and affordable through programs focused on community-driven projects and low-and-moderate income customers. NY-Sun is a statewide solar initiative to expand the deployment of solar capacity throughout the state to build a self-sustaining solar market. Previously, Max was the Director of Community Solar Initiatives at Solar One, a nonprofit organization in New York City, and the Capital Projects Coordinator at the Queens Botanical Garden. Max can be reached at 212.971.5342 x3035 or max.joel@nyserda.ny.gov

Robert Somers is manager of the Agricultural Protection Unit at NYS Department of Agriculture and Markets. Responsible for the administration of the Agricultural Districts Law and the Farmland Protection Law, Bob current employment emphasizes “right-to-farm” issues, such as sound agricultural practices, unreasonably restrictive ordinances, and agricultural impact statements. He holds a Doctor of Philosophy Degree in Forest Soils from the SUNY College of Environmental Science and Forestry as well as an undergraduate and graduate education in forestry and natural resource administration. Bob can be reached at Bob.Somers@agriculture.ny.gov or 518.457.3738

Steven N. Mogel currently maintains his own practice located in Monticello concentrating in the areas of civil litigation and appeals, land use and development, municipal law, corporate and business law, commercial and residential real estate, as well as probate, criminal law, family law, and matrimonial law. Steven has represented and counseled clients in the negotiation of large scale solar farm leases in multiple counties in New York State, and has made several well-received presentations on solar farm leases in Sullivan and Ulster Counties to legislators, planners, attorneys, landowners, and interested members of the public. Steven serves on multiple community and professional boards, including the Board of Directors of Cornell University Cooperative Extension of Sullivan County, and is a past President of the Sullivan County Bar Association. Steven can be reached at Phone: (845) 791-4303 or smogel@sullivancountylawyers.com
