

COVID-19/ Coronavirus

www.OrangeCountyGov.com/Health

Steven M. Neuhaus
County Executive

Dr. Irina Gelman
Commissioner of Health

Symptoms

Reported illnesses have ranged from mild symptoms to severe illness for confirmed coronavirus (COVID-19) cases

Fever

Cough

**Shortness of
Breath**

Symptoms may appear 2-14 days after exposure.

If you have been in a country with community spread of COVID-19, or come in close contact with someone with a confirmed case in the past 2 weeks and develop symptoms, call your medical provider before going to a hospital or doctor's office.

Prevention

Currently there is no vaccine to prevent COVID-19. However, there are multiple non-pharmaceutical methods that can help.

Avoid Contact

Avoid close contact with people who are sick.

**Stay
Home**

Stay home when you are sick.

**Wash Your
Hands**

Wash them often with soap and water for at least 20 seconds.

**Keep Sanitizer
Close**

Clean and disinfect frequently touched objects and surfaces. Sanitizer must contain at least 60% alcohol.

**Don't Touch
Your Face**

This is the easiest way for germs to get into your body.

**If Sick, Wear a
Mask**

Currently face masks are not recommended for the general public in the US. If symptomatic, experts recommend wearing a mask to protect others.
