

## **TRAINING BULLETIN**

### **Basic Incident Command System (I-200)**

The complexity of incident management, coupled with the growing need for multi-agency and multifunctional involvement on incidents, has increased the need for a single standard incident management system that can be used by all emergency response disciplines. The Basic ICS course is part of the National Training Curriculum. Under Executive Order #26, March 5, 1996, NYS Governor George E. Pataki established the National Interagency Incident Management-Incident Command System as the standard command and control system during emergency operations.

**Designed For:** Emergency response personnel  
**Course Length:** 12 hours  
**Prerequisite:** None  
**Min / Max # of students:** 10 / 30
